

## **ALL COMET BAY COLLEGE STUDENTS:**

### **Unique Student Identifier Number Application**

All Students enrolling with Comet Bay College, must provide the college with their individual Unique Student Identifier (USI).

The implementation of this new reform has resulted in schools being unable to enrol students in Nationally Recognised Courses (with most Registered Training Organisations) without a USI number. Comet Bay College offers a wide range of Nationally Recognised Courses to its Senior School Students, and therefore requires **ALL** students to obtain their individual USI.

If you have not already provided your child's USI to Administration, please follow the link below to apply. You will require supporting Identification documents such as a Medicare Card and Drivers Licence to complete the application:

<http://www.usi.gov.au/Students/Pages/steps-to-create-your-USI.aspx>

**Once you have been issued with your child's USI, please enter the number directly onto the 2017 Course Selection Sheet in the space provided.**

**Where a student has chosen a Nationally Recognised Course as part of their 2017 selection and no USI has been provided, an alternative course will be selected at the discretion of College Staff.**

Further detailed information regarding the USI program is available here:
